**Happy Birthday Scorpio the Scorpion!** (Happy Birthday Mom ☺) to all of those born from October 23 - November 22! Key Phrase for Scorpio is **"I DESIRE"**

Scorpio abhors phoniness and can usually spot a lie before it is even uttered in word. They are usually honest and loyal. Scorpio Rising (Ascendant) individuals usually have angular facial features and are easily recognized by the eyes. The expression "the eyes are the window of the soul" might be considered the hallmark of one with planets in the sign of Scorpio...and with a twist. You might say that Scorpio Rising people have the unique ability to see into the soul of "others" with their penetrating gaze.

Scorpio's polar opposite (8th house - sexuality, taxes, values of others, others finances, inheritances, death and endings) is the fixed, earth sign Taurus (2nd house - values, finances, aesthetics, issues around personal security). The integration of my values and finances versus others values and finances and security issues are some areas of life for Scorpio, also contingent upon other areas of the birth chart. When under stress each sign will operate through the most negative characteristics of their polar opposite, the sign 180 degrees opposite itself. In this case, when under stress, Scorpio can manifest the negative qualities of fixed earthy Taurus, ruled by Venus. Some of those qualities would be the unique stubbornness, inflexibility and fixity of Taurus. Temper tantrums are possible.

If we can't find a way out of these problems  
Then maybe we don't need this

Standing face to face  
Enemies at war we build defenses  
And secret hiding places - Hold Me - Savage Garden

Our icy planet Pluto rules the sign of Scorpio. Some astrologers still utilize the original ruler Mars as Scorpio's ruler. Pluto is considered the higher octave of Mars in traditional astrology. They are sometimes associated with the 1<sup>st</sup> and 2<sup>nd</sup> charkas where instincts and survival issues are centered, 8<sup>th</sup> house versus 2<sup>nd</sup> house issues. I would venture a guess that a Scorpio "invented" the concept of "Soul Mates".

I believe in love surviving death into eternity  
- Affirmation - Savage Garden

Obsessions, compulsions, addictions and uncontrollable passions all fall under Pluto's realm. If your Pluto makes an aspect to a partner's Venus or Mars...sparks fly.. Astrologer Linda Goodman in her book, "Relationship Signs" writes that Venus/Pluto contacts indicate a "soul mate" relationship. There is an indisputable karmic tie between you and it's a powerful one. Even when there are disagreements....it is next to impossible to separate the two of you permanently. Anyone who tries to come between you will not succeed". Pluto has strength and staying power.

You're the center of adrenaline  
And I'm beginning to understand

Never want to fly  
Never want to leave  
Never want to say what you mean to me  
Never want to run  
Frightened to believe  
You're the best thing about me

Walk on broken glass, make my way through fire  
These are the things I would do for love.  
Farewell peace of mind, kiss goodbye to reason  
Up is down, the impossible occurs each day  
This intoxication thrills me  
I only pray it doesn't kill me...  
- The Best Thing - Savage Garden

Pluto was discovered in 1930. This was a period of time when the atom bomb, made from Plutonium, was being developed. The United States was in the midst of a Depression and Psychoanalysis and Depth Psychology were emerging. Pluto is symbolic of psychoanalysis. The function of Pluto is to transform, liberate and motivate. Sigmund Freud's theories on sexuality (Scorpio and 8<sup>th</sup> house) and Carl Jung's theories of transformation (Pluto) were formulated. Hypnosis, probing the hidden recesses of our mind is also related to Pluto.

Both Freud and Jung have Pluto prominent in their birth chart. Additionally, Pluto was assigned to rule the sign of Scorpio since both the planet and its sign are related to the underworld. (Underneath and hidden from view)

Pluto is the planet of power, obsessions, transformation, the depths, what's underneath, sexuality and instincts necessary for survival. Pluto/Scorpio is nothing if not intensely passionate and penetrating. The superficial holds absolutely no appeal for those born under the sign of Scorpio...these guys are "deep" and penetrating...and just try to pull one over on them and you will have an enemy for life. Frankly, you may not know this about them because they have the ability to conceal and cloak themselves in (self protective) secrecy quite well. The planet Pluto ruling the sign of Scorpio is all about redefining and transforming the mundane and outmoded. Scorpios usually have many talents and vocational interests' i.e: research, psychology, sex therapists, metaphysics, analysis, detective work, surgery, The Mafia, medicine and jobs where scrutiny of data is necessary. Scorpio resides in the 8<sup>th</sup> house of the natural zodiac and so also rules our sexuality and the sexual and reproductive organs of the body. Most Scorpios exude sexuality and are magnetically attractive to others. They have the reputation for being the sexiest sign in the zodiac and the most intense!! The French have a term for orgasm called "la petit mort" meaning, "a little death". Scorpio desires to be swept away through erotic transcendence. This little death experienced through orgasm is both a desire and fear. In Sanskrit, Nirvana means "annihilation" or to be "blown away". <ahem> And what about Scorpio and sex??...Tantric practices, all consuming, mystical, spiritual, sacred sexuality!!...can you say Kama Sutra???

When Pluto transits your birth chart or if Pluto is significantly placed in your birth chart, you may experience a sense of loss during your lifetime. Sometimes something of value is taken away from us or we are forced to make a decision to give up something or someone we thought we could not live without. Sometimes these experiences or decisions "feel" like they are death. Pluto experiences force us to go down as far as we can and hit "bottom". Events, things, beliefs and people that once provided safety and security will no longer under a transit of Pluto. Most often these "things" aren't material in nature. They are usually beliefs and attitudes about ourselves and about life, perhaps how we experience others or one person in particular. Because Pluto is so slow moving and has its retrograde (backward motion) phases, it is possible for him to pass over a point in your chart 3 times before he has completed his transformative process. When Pluto transits are felt, very often you may feel as if you are descending into unknown territory, and very often you are. It doesn't feel safe yet you know on some deep level that you need to get there. In mythology, the descent into the underworld is classically the feminine archetype. Ariel Guttman and Kenneth Johnson's *Mythic Astrology* refer to this descent as follows: "It represents the acquisition of serpent wisdom, which is defined as feminine wisdom. Medusa had serpents in her hair and Pluto rules Scorpio, the sign traditionally associated with the serpent. Thus the process of initiation through pain, grief, darkness and emotional resurrection is an essentially feminine process. Men don't do well with this particular

journey". Pluto experiences and transits are for the growth of the soul and are transformational in nature. If you have Pluto prominently placed in your birth chart, you'll have most likely experienced acceleration in your personal evolution.

### **Tarot Card # 20 XX – Judgment – Symbolic of Pluto**

The Symbol of Judgment may appear in a reading during a time of soul testing. You may need to adjust to new circumstances based upon a changed awareness. In the Rider-Waite version, Angel Gabriel sounds a trumpet as he creates air. Air is equivalent to breath. There are seven lines or tones radiating from his trumpet = sounds of do re mi fa sol la ti do. The people below, man, child and woman raise their arms up to the Angel as their spirits unfold. Their gray bodies are symbolic of wisdom.

This card can symbolize something lying dormant within us awaiting emergence into consciousness. Some unconscious truth is being awakened and brought to our awareness. Perhaps we lacked clarity and we're more easily seeing the pathway to truth. Judgment usually speaks of a time of reckoning, bringing to light that which was hidden. Freedom from past guilt and the inspiration to move ahead is possible now. Darker aspects of our personality may have been repressed or stuffed down inside, because of fear. Perhaps this is a time to judge not only your own motives and that of the person in question in your reading.

When this card appears in a reading, you are being asked if your judgments of others are restricting your growth and your ability to create lasting relationships. The need to transform dysfunctional beliefs will elevate you to a higher spiritual vibration.

### **FREEZE UP MOON (Snake)**

In Native American Astrology, those born from October 23rd- November 22nd are born under the Freeze Up Moon and their animal totem is the **Snake**. Their gemstone **Malachite** is thought to have spiritual powers and increases receptivity to all forms of subtle energy including psychic energy. Their color is **orange** and their mineral is **copper**. Copper is attributed with many special powers. For years, people who suffer from arthritis will wear copper bracelets or anklets to ease the stiffening of the joints. Copper also conducts electricity better than most other minerals and is usually utilized in electrical wiring. It also conducts heat more uniformly than most over a variety of surfaces and is why you will often see this coating underneath pots and pans.

Snake people have great ability to aid in others growth. Snakes are very adaptable to their environment. They are highly sexual beings, and very sensitive to touch and vibrations, partly because they are cold-blooded and use their environment for warmth. Because snakes have a prickly outer skin, people tend to not want to get too close to them. Once others realize the outer skin is only a protection for their inner sensitivity they will start to develop a closer relationship with Snake people.

**November, 2005**

**Our Moon changes signs approximately every 2 ½ days.**

**October 1, 2005 - Mars turned retrograde at 23 Taurus 22'** - Mars will stay retrograde in the sign of Taurus until **December 10<sup>th</sup>** and will move forward at 8 degrees 14 minutes. If you have any planets from 24 to 8 degrees in the fixed signs especially, you will be affected if you have planets in the sign of Taurus, Scorpio, Leo and Aquarius. You will also be affected if you have any planets in the sign of Aries, since Mars is the ruler of Aries. In Taurus, Mars feels a little stifled at first. He is slow to warm up. Yet once he gets moving he begins to pick up strength and endurance and is in it for the long haul. When retrograde you may feel a lack of energy or an inability to move forward in the area of life Mars rules in your birth chart. This is not the time to start any new business ventures as they will be stalled or involve complications that will not clear until Mars turns direct. Legal battles will only frustrate you so try to hold off initiating any during this time. Mars is our physical energy and sexuality, how we pursue our goals. When retrograde you may feel as if you are hitting a wall and have to try ever so much harder to attain your goals. At this writing, **October 22<sup>nd</sup>**, Mars is currently sitting on 20 degrees Taurus 27 minutes. Mars ends the month at 17 Taurus 36'.

**October 26, 2005 Neptune turned direct at 14 Aquarius 49'**. If you have planets in conjunction (the same sign and approximately the same degree) opposition to this degree (Leo) or in square (Scorpio and Taurus) you will feel the illusive effects of Neptune's transit the most over time. The dissolution of boundaries and illusions or the uncovering of the truth will be revealed when Neptune transits your personal planets. With Neptune turning direct secrets will be revealed. Illusions shattered and pierced and the veil of denial lifted. Anyone who tried to pull the wool over your eyes will now be revealed in their true light. Neptune will end up at 15 Aquarius 8' on the last day of November.

**October 27, 2005 Jupiter enters Scorpio** - Jupiter begins the month at 24 Libra 34' and ends the month of October at 01 Scorpio 03'. See where Jupiter transits in your natal or progressed chart for further clarification. Jupiter ends the month of **November at 07 Scorpio 24'**. With Jupiter entering Scorpio, we move away from the attraction factor in relating to seeking a deeper meaning and what's underneath the surface fluff. Cultivating and expanding your view of the inner dynamics of relating and gaining success in the same is likely.

**November 2, 2005: New Moon 09 Scorpio 43'** - The New Moon is always a good time to start a new project or work on areas of your life you've placed on hold. New beginnings are associated with New Moons. In Scorpio, new beginnings involve delving into your psyche, emptying emotional closets, working on your financial situation or long range financial planning....even starting your taxes!

**November 6, 2005 - Venus in Scorpio enters Capricorn.** Venus in Scorpio values relationship intensity. Jealousy in love is possible. Finances play an important role in choosing a partner they are attracted to when in the sign of Scorpio. Relationship privacy is important to these folks. When in Capricorn, Venus is selective and takes its time choosing a partner who is reliable and predictable. The partner might be 7 years older or younger. Venus in Capricorn seeks value in partnering.

**November 14, 2005 - Mercury turns retrograde at 10 Sagittarius 56'** Mercury is fiery Sagittarius is spontaneous, abrupt, jovial and philosophical. Whenever Mercury is retrograde we need to reflect and redo something. This is not a time to initiate anything new. Purchasing of any electronic or computer equipment should be postponed until Mercury, not only goes direct, but passes its shadow point. Mercury turns direct on December 4<sup>th</sup> at 24 degrees of Scorpio and it will pass the degree it turned rx on December 22<sup>nd</sup>. Please note Mercury moving backwards opposite the Full Moon, two days later.

**November 16, 2005: Full Moon 23 Taurus 46'** - A full moon is a culmination of energy from the last New Moon, approximately 14 days earlier. In the earthy, fixed sign of Taurus; this is culmination of value structure and security needs energy waiting to spring forth. Since Fixed Star Algol is in this degree, be careful about losing your temper...Algol is known to "lose its head" both literally and figuratively. This degree is prominent in "decapitations" reports.

**November 16, 2005 - Uranus in Pisces turns direct** - Uranus turns direct at 06 Pisces 50'. If anyone has planets with 5 degrees in either direction, you will feel the energy of Uranus going direct in your life. A sudden resurgence, a new idea, an intense desire for action is possible in the area of life Uranus is transiting. With Uranus turning direct on the Full Moon conjunct Algol...please be careful of road rage and drive carefully! Do you remember your mom or dad telling you to "play nicely" Well..there you go..if ever you thought you should play nicely that time would be now!

For instance, when Uranus transits opposite natal Venus, you may encounter a new love or the break up of an existing relationship. If you have a daughter, she may prove more rebellious or in need of freedom. If Uranus is transiting opposite natal Mercury, you may feel more restless and not require as much sleep. You may have sudden flashes of insight. Do not be surprised and the quickness to which you act and respond to events and people in your life when Uranus makes contact with your personal planets. With Uranus in backward motion, the need to turn inward is greater. Keen insights are likely.

**November 18, 2005 - Mars in Taurus squares Saturn in Leo** exactly today but watch up to one week earlier as this aspect begins to culminate. This is called an approaching square and I associate it with a tidal wave. The build up of energy give us the clue and warns us to run, to take cover before the actual wave hits. Mars is anger, assertion of energy, it's hot and red and fiery. Mars is also in the sign of the Bull! Ever try to get a bull to back down?? Saturn is boundaries, restrictions, karma, buildings and structures. Saturn is in the sign of Leo and Leo is proud and dramatic. Mars wants his own way and charges ahead furiously...Saturn in the proverbial "brick wall" that says first, you need to pay \$100 to "Get out of jail" or to "pass go". Mars is head strong and says, "yeah, right" and charges ahead regardless of the penalties involved. This aspect will be exact again on December 28<sup>th</sup>. However the aspect is within 3 degrees of exactitude from November 9<sup>th</sup> through January 6<sup>th</sup>! Move slowly.

**November 22, 2005 - The Sun enters expansive Sagittarius - Happy Birthday Sagittarius!** Sagittarius is a mutable, fire (intuition) sign and will be discussed in next month's issue of Lunar Notes.

**November 22, 2005 - Saturn turns retrograde at 11 Leo 18** - Saturn is all about our physical structures, restrictions and limitations as well as boundaries. Our outer skin is one of these boundaries that keep us "together". Saturn rules the skin, knees and skeletal structures. Saturn is also about our commitments to our personal structure and karma. If you have not acted with integrity or been responsible, Saturn will make you aware of it by creating some limitation, boundary or lesson to re-learn. If you have been working hard, Saturn will possibly set up a task in which you need to prove yourself. Saturn rewards those who have worked hard through difficult times. Saturn starts the month of November at 10 Leo 53' and ending the month at 11 Leo 15. Saturn in Leo will restructure what we know about patriarchy, parenting, responsibility, excessive pride and the ego. If you have planets in conjunction (the same sign and approximately the same degree) opposition to this degree (Aquarius) or in square (Scorpio and Taurus) you will feel the effects of Saturn in your chart.

**Pluto starts the month of November at 22 Sagittarius 02' and ends up at 22 Sagittarius 42'.** Pluto is in a fire sign burning holes in belief systems that no longer suit our life purpose. Pluto is all about personal power and regeneration, throwing out the old and bringing in the new, oftentimes after a complete overhaul! Pluto in Sagittarius is dogmatic and reveals religious, political and philosophical truths. Purging false beliefs in these areas of life has been ongoing. Pluto turned direct on September 1st in your chart, everything you have been regenerating in that area of life will have to change. Change doesn't always feel good. We tend to seek comfort in all things. Pluto isn't necessarily about comfort. Pluto transits feel anything but comfortable. Pluto tends to change you on a very deep psychological level. I compare Pluto's energy to erosion. It takes a very long time for the wind, sun and ocean tides to wear down the beaches and rock. Little by little with each crashing wave, particles of minerals and sand are removed. Over long periods of time, new surfaces and formations emerge sometimes changing the geography of the shoreline. This happens too within our psyche with some assistance from Pluto. Pluto and the 8<sup>th</sup> house is

where psychotherapy finds its strength. Pluto is also about power. Owning your own power in the house Pluto transits is intensely focused at this time.

### **SABIAN SYMBOL'S:**

For those of you unfamiliar with the Sabian Symbol, the original Sabian Symbols were written in 1931 by Marc Edmond Jones. Dane Rudhyar later revised the symbols and others have re-interpreted the symbols periodically. Lynda Hill writes one of my favorite modern interpretations. The basis of these symbols is derived from the 360 degrees in the zodiacal circle. Each sign of the zodiac: Aries, Taurus, Gemini and so forth, is comprised of 30 degrees. Since there are 12 signs in the zodiac, that would be 12 signs X 30 degrees = 360 degrees. There are 360 Sabian Symbols and each symbol coincides with and describes each degree of the zodiac. If you know your birth chart, utilizing these symbols for each of your planetary placements is rather telling and will provide you with greater insight into your own character traits and motivations.

### **NEW MOON - NOVEMBER 2, 2005 - 09 Scorpio 43"**

New Moon = New Beginnings. New Moons augur a time to start new projects. Seeds (ideas and positive energy) planted during a New Moon will culminate and flourish during the Full Moon. In the sign of Scorpio, it is a good time to focus on your personal property, sexuality or sexual issues, legacies, your taxes, money and the values of those who are close to you. This New Moon emphasizes your feelings and emotions.

### **SABIAN SYMBOL for 10 Scorpio:**

#### **A FELLOWSHIP SUPPER REUNITES OLD COMRADES**

This symbol is one of reminiscing with like minded others. Reliving old memories and sharing new stories is highlighted. In sharing past memories in the present, we are able to see how far we have come in our lives and our journey for self fulfillment.

This symbol could also be one of meeting a person who you feel you have known before. A past life, karmic or "soul mate" connection is possible. If it feels familiar, pay close attention to why this person has entered your life.

Friendship, bonding, sharing and socializing are indicated. How does this symbol speak to you?

### **FULL MOON - NOVEMBER 17, 2005 - 23 Taurus 46'**

With a Full Moon, we see a culmination or coming to a head the seeds planted during the previous New Moon cycle. Lunar ruled Cancer is usually more affected by a Full Moon and especially in her own sign. Since the October 17th Full Moon falls in the sign of Aries, this lunar energy will be emphasized. Aries is a cardinal, fire (intuition) sign resides in the 1st house of the natural zodiac, ruled by the God of War, Mars. If this Full Moon Eclipse

conjuncts (same approximate degree) or opposes (180 degrees opposite) a natal planet, you will be more likely to experience the affects of this Full Moon in the area of life (houses) it is located in your birth chart. All lunar issues will be prominent. Lunar issues involve emotions, the emotional nurturing we did or didn't receive, the emotional nurturing we give others, our mother and all women would be highlighted. In the sign of Taurus, the values, security, earning potential, personal property, profit and loss as well as the neck and throat will be highlighted. With this Full Moon conjunct (same degree sharing energy) with the Fixed Star Algol, we need to be especially careful of anger and "losing our head". The degree of Algol is prominent in police reports of victims who have been decapitated...accidentally or intentionally. Figuratively speaking, this symbol is about losing your cool or being confronted by others who do!

**SABIAN SYMBOL FOR 24 TAURUS:**

**AN INDIAN WARRIOR RIDING FIERCELY WITH HUMAN SCALPS HANGING AT HIS BELT.**

See above...ditto Algol and scalped heads! There ARE no coincidences!

Warriors often only want to show what they have accomplished by way of hurting others. Although it is important to defend your position, annihilating another doesn't bring the desired result of respect and admiration. A true warrior takes others rights into consideration.

An Indian Warrior may feel the need to mark his territory because a boundary has been violated or "invaded". Taken to extreme, wars between people are initiated then escalated. Domination and fighting to protect one's territory as well as retributions and feeling taken advantage of are indicated.

**SOUL MATES/RELATIONSHIPS:**

**The Scorpio/Taurus Ascendant/Descendant Relationship Axis (1<sup>st</sup> house/7<sup>th</sup> house)**

As mentioned in past issues, knowing your partners 7<sup>th</sup> house cusp (the relationship house) and the ruler of that house will indicate the type of partner you may attract or are attracted to and the method of relating within a relationship.

The Ascendant or Rising sign is the sign rising on the horizon at the time of birth. This is the face we show the world, our "mask" for which our Sun hides behind. This is our outer personality, temperament and disposition as well as how we experienced our early home environment growing up. It is the way others see us and also gives indication of our physical appearance. The ruler of the Ascendant and the aspects (connections to other planets in your birth chart) further delineate and define your physical appearance.

The Descendant, or 7<sup>th</sup> house cusp, its ruler and the aspects it makes in your birth chart, is symbolic of the type of partner you are attracted to. The 7<sup>th</sup> house is the house of all

partnerships including marriage and legal contracts yet also considered the house of open enemies or the Defendant in a law suit.

In relationships, Scorpio has a dual planetary rulership. The ancient planetary ruler for Scorpio is assertive Mars, while the modern planetary ruler is transformative and regenerative Pluto. Pluto ruled Scorpio is intense, private, penetrating and sexually alluring. If you have a Scorpio Ascendant, you are private, discreet, and are known for the intensity of your eyes or gaze. Scorpio Rising individuals could challenge anyone in a staring contest and not blink an eye!

With Venus ruled Taurus on the descendant you seek an affable, loving, charming, graceful and attractive partner. Attraction to a partner with those qualities who is artistic, creative, musical, sociable, loving, stable, sensitive, "earthy", practical and sensual is likely. A male with Scorpio Rising would seek a feminine, deeply sensual and monogamous partner who is both reliable and predictable. A Scorpio Rising woman, although she seeks the same qualities as the male, the partner she is attracted to could be more sensitive, in touch with their "yin" nature or even "prettier" than other males. The person would have strong personality, trustworthy, sensitive, dependable and hard working. If you have a Scorpio Ascendant/Rising, knowing your partners Venus placement and the aspects it makes, will tell you a lot about how he/she will treat you in your relationship and how they will act in relationship to you! Venus is what we value and what we are attracted to. In a man's chart, the qualities of his Venus sign will indicate the type of partner he is attracted to. In a woman's chart Mars is symbolic of her ideal man while her Venus placement will also indicate the type of partner she is attracted to. Mars in a man's chart indicates how he will pursue who is attracted to.

One of the first things I look at when I have the birth data of a potential partner, is their Venus placement! (My Ascendant is in the sign of Scorpio) A dear Astrologer friend taught me a "Mantra" in locating a partner for myself (thank you Bill!!)....."Bad Venus....NO Penis! ...couldn't resist... I hope you're laughing...because it's the truth! Scorpios have the "unfortunate" reputation of being the most sexual sign of the zodiac....so... if your potential partner's Venus placement isn't favorable, you should either "handle with care" or don't even go there! ☺

It is also possible for a Scorpio Ascendant to attract a partner who has Venus prominent in their chart. A prominent Venus would be in aspect to the Sun, Moon, Mars or Venus or elevated in conjunction to the MC or conjunct or ruling their Ascendant (Libra/Taurus) or Descendant (Libra/Taurus) or Sun sign (Taurus/Libra).

Knowing the date, time and place of birth is important in making the determination of the Ascendant or Rising sign, the sign rising on the horizon at the time of birth. This cusp sets up all the other house cusps that are the divisions of the houses or areas of life.

Next month the fixed Sagittarius/Gemini Axis will be highlighted.
