New Age Insights is located at 105 Leonardville Road, Belford, New Jersey. **Lorraine** will be working our *Psychic Fair* on December 31st, January 8, & January 22 from 11:30-4pm doing both Tarot and Astrology Readings. <http://newageinsights.com/>

I'd like to take this moment to thank all of you who subscribe to Lunar Notes and for all of your comments and suggestions. The first issue of Lunar Notes was distributed in July 2002 which means that Lunar Notes will be going into its 4th year! I remember sitting down to type the first issue and when it was finally completed and ready to e-mail it off to you, my hard drive was fried in an electrical storm! The first issue was actually distributed from my neighbor's house down the block!

Within the last two years both www.FuchsiaStars.com and www.KarmicAstrology.tv websites were awarded the Spirit and Sky Award for best Spiritual websites. I am grateful to all of you who have visited my websites and who have requested consultations. It has been a gratifying experience getting to know many of you through either Tarot or Astrological consultations.

I've recently purchased a new software module that permits me to generate beautiful **Child Reports**. This report makes a wonderful gift for the new parent, a birthday gift for a young adult or even a report for your grown child as a memento of how they probably perceived the world and others around them during their childhood. Sometimes it's important to look to our past to see how we became. Our past can offer invaluable clues to our present circumstances. You may even want a copy of this report for yourself! ☺

Please note the next several of issues may be delayed or shorted due to my having returned to school.....so please be patient with me.

Also...for those of you who have contacted me about website updates, I've got a terrific new Web Designer named Mike Katz who is, and will be providing the required updates on a more timely basis. For more than 6 months I've been unable to contact Chris, my old web designer because he's off in the world writing screen plays. I wish him all the best yet I also welcome Mike!

Gift Certificates are now available for Readings, Reports and Workshops. Parents: Natal consultations about Children /Teens! Makes excellent Birth, Graduation or Sweet 16 Gifts. **Happy Birthday Capricorn the Sea Goat!** Happy Birthday to all of those born from December 22 - January 21! Key Phrase for Capricorn is **"I UTILIZE "**

Capricorn is a Cardinal (action oriented, initiator), earth (pragmatic and grounded) sign located in the Eastern Hemisphere of the chart. Capricorn governs the 10<sup>th</sup> house of the natural zodiac. Capricorns are considered the workaholics of the zodiac and Saturn expects nothing less from us than he is willing to do himself. Capricorns are dutiful, reliable and steady. Capricorns were the children who everyone would seek advice from. Many Capricorns were old before their time, wise beyond their years and very mature. They tend to act younger with each passing year wanting to make up for all that lost time! Capricorn in health issues relates to the skin, bones/skeletal system, knees and arthritis...illnesses where inflexibility or rigidity settles in the body.

Your ruling planet is the restrictive and structured planet Saturn. In traditional astrology, Saturn is considered to be a malefic planet and tends to operate through our fear. Saturn is considered to be thrifty, tactful, disciplined, stern, cold and severe. When Saturn transits our chart he usually brings some kind of limitation to our lives. Frustration and hard work is expected from Saturn. If you have met the challenge and worked through a Saturn transit, you will often manifest wisdom and benefits from your hard work. Sometimes when Saturn transits your chart decisions are made or finalized. On the positive side when you are self-disciplined and self-directed at a task, accomplishment and financial gain is your "Saturnian" reward. If you have Saturn strong in your chart, you may be drawn to antiques, ruins, ancient times and even collecting old objects of substance and worth.

Saturn and the sign of Capricorn reside in the 10<sup>th</sup> house of the zodiac and starts at the cusp called the MC or Medium Coeli. The 10<sup>th</sup> house is typically linked to structures, real estate, your public reputation and work in society, timing, cycles and wisdom earned as a result of difficult tasks. The 10<sup>th</sup> house, the ruler of the 10th and planets in the 10<sup>th</sup> are also symbolic of the mother, traditionally, or often the parent who was most influential in your life. Saturn is a tough teacher and taskmaster, if you will. He sets limits, boundaries and obstacles for us to overcome. Depending on how well we do, he may grant us a "reward"...a reward for our hard work. In Karmic Astrology, Saturn plays an important role and represents cycles of time. When we are in a "karmic" relationship, there is a feeling of lack of control over the events and circumstances within the relationship. Through these circumstances and events, we develop a new self-awareness, a new understanding of the person we are involved with and also how we relate to the environment. Saturn will often present us with someone approximately 7, 14, 21 years older or younger than ourselves. "When the student is ready, the teacher (Saturn) will appear." Some karmic relationships are teacher/student, parent/child or counselor/patient. There is something which must be taught, and something that needs to be learned and understood...by both participants.

When there are Saturn contacts in synastry (chart comparison) it will usually augur a lasting and binding relationship, although it may not always be an easy one.

Martin Schulman, in his wonderful Karmic Astrology series states: "Every time our unconscious is working something out, it calls into our lives the people who have within the pieces of the answer we are seeking." What he means is that you may find that a certain type of person or situation repeatedly enters your life. Just as you end a relationship with one person with a particular problem, another enters your life, often disguised, with a similar problem! (that is if you haven't worked through and learned your lesson from before) Sometimes the Universe brings you this situation or person as a "test" to see how much you have learned from your last similar experience. Or...you may meet several people consecutively with the same sun or moon sign or similar aspects. There is something the universe is pointing you towards and you must pay attention to what is being presented for you to learn. This is Saturn - the wise teacher and why others often consult Capricorn's for their cut to the chase advice.

Capricorn's polar opposite (10th house - public reputation, real estate, business affairs, power, credit, profession and the Mother) is the cardinal, water sign Cancer (4th house - home, family, children, the past and root in early childhood). Career versus home life, working and family are issues that are frequently in conflict for Capricorns, also contingent upon other areas of the birth chart. When under stress each sign will operate through the most negative characteristics of their polar opposite, the sign 180 degrees opposite itself. In this case, when under stress, Capricorn can become ...just like cardinal, watery Cancer, ruled by the Moon and become emotionally distraught, moody and temperamental withdrawing, crawling into its shell for self-nurturing, distance and comfort.

When Saturn transits your birth chart or if Saturn is prominent in your chart, you may experience restrictions, boundary issues, and extra responsibilities.

Somewhere inside my evolution  
Karmically I seek retribution  
Looking for love in physical beauty  
Desire is the drug of the bourgeoisie  
And now I try to intellectualize  
Like a glimmer of good in a bad man's eyes  
I am consumed by the flesh haunting me  
I know temptation taunts the empty

The decadence of giving into desire  
Creates such entropy within  
Looking for love in spiritual faces  
Blind to the art of fabrication  
I'm like a baby sucking mama's milk  
Want to drink my fill and then some  
Leave me alone  
I always thought I was better than this

But temptation tempts the temptee

This physicality  
Shifting me chemically  
Such power over me  
It's just desire  
I know it's treachery (shifting me chemically)  
I know it's just skin deep (such power over me)  
I know I should resist  
I'm just too tired  
Too tired

There's just one thing missing  
One thing missing here is  
Love

**Tarot Card # 15 XV - The Devil - Symbolic of Capricorn**

The **Devil** Card in the Rider Waite Tarot deck is symbolic of some of the feelings we have when in an addictive relationship. We may feel so completely bonded to this person in an almost obsessive way. Because of this obsession we will often feel tied down or stifled by the intensity of this energy almost as if it is against our will! We often merge with this person on a very deep level losing our independence and allowing ourselves to be controlled

and enslaved to this addictive feeling of sexual love. When we become addictive in our love patterns we often get caught up in appearances and the physical part of the relationship. We begin to limit ourselves, choosing to stay in the dark about other areas of the relationship. When we neglect seeing other areas of the relationship we can start to think negatively about seeing the relationship without this passionate energy and the intensity of the connection. We can become stuck in fear and doubt at this point.

On a mundane level, The Devil symbolizes our obsession with materialism. You may feel bound, controlled and owned by the possessions you have acquired, fearful of not having enough. We "are" what we own or without those "things" we are no one. Possessions and what we own only reflect our own inner insecurities, if that is all that brings us happiness. This doesn't always have to be a physical object as it can be a thought or a belief that keeps you stuck or self confined in self-destructive patterns, preventing of self-sabotaging your happiness.

The Symbol of The Devil may appear in a reading during a time when it's time to focus on ridding your obsessions over people, situations and material possessions that controls your life.

### **EARTH RENEWAL MOON (Snow Goose)**

In Native American Astrology, those born from December 22<sup>nd</sup> - January 19<sup>th</sup> are born under the Earth Renewal Moon and their animal totem is the Snow Goose. Their color is white and quartz is their totem in the mineral kingdom. Quartz is a fairly hard mineral and comes in a variety of smoky pastel colors. Quartz is a power stone and has the ability to transmit and receive energy through it. Like the quartz, the Snow Goose has the ability to transmit and receive great powers to and from the universe. They have the ability to see clearly as long as they do not become too hard in their views or philosophies.

If you have ever seen Snow Geese flying overhead, you will see them fly in a V shape with an adult female as the lead goose. Each goose helps to break the air by those who follow. They make quite an impression on us with their "honking" and precision in flight. Snow Geese are also known to be nitpickers because they hate when things are left undone.

### **December/January, 2006**

**Our Moon changes signs approximately every 2 ½ days.**

**December 22, 2005 - The Sun enters contracting Capricorn - Happy Birthday Capricorn!** Capricorn is a cardinal, earth (grounded) sign and will be discussed in next month's issue of Lunar Notes.

**December 24, 2005 - Venus in Aquarius conjunct Chiron turned backwards at 1 Aquarius 27'.** Venus is daughters, money, values, love, beauty, art, and relating. In the sign of Aquarius Venus is a good friend, she want a friend in her lover and once in a relationship seeks freedom and diversity. Venus in Aquarius, although fixed, is not possessive in love.

Moving side by side with Chiron, gives her the ability and desire to heal her relationship to others and to herself. Perhaps it's time to get a handle on your finances. While Venus stationed retrograde today, she will separate from Chiron and move back into practical Capricorn on January 2, 2006. Venus in Capricorn desires commitment and monogamy. With Venus moving backwards retracing it's steps in Capricorn gives us the opportunity, from now until February 3, 2006 when she turns direct, to reevaluate what truly makes us happy in our personal relationship. What we value and how we value ourselves is highlighted during this time. Often old loves return to resolve unfinished business. It's not a good time to purchase anything of value or beauty because when Venus turns direct, you will grow disillusioned with your purchase. You simply may not value it as much as you thought you did. It's also not a good time to begin a new relationship. You're really not seeing the other person clearly or they aren't presenting their true self to you. Sometimes we don't feel desire when Venus is moving backwards, or we don't feel that we are desirable. Because of this lack of desire it is even more important that you take extra good care of your appearance during this time

**December 28, 2005 - Mars at 10 degrees of Taurus squares Saturn at 10 degrees of Leo** exactly today but watch up to one week earlier as this aspect begins to culminate. This is called an approaching square and I associate it with a tidal wave. The build up of energy give us the clue and warns us to run, to take cover before the actual wave hits. Mars is anger, assertion of energy, it's hot and red and fiery. Mars is also in the sign of the Bull! Ever try to get a bull to back down?? Saturn is boundaries, restrictions, karma, buildings and structures. Saturn is in the sign of Leo and Leo is proud and dramatic. Mars wants his own way and charges ahead furiously...Saturn in the proverbial "brick wall" that says first, you need to pay \$100 to "Get out of jail" or to "pass go". Mars is head strong and says, "yeah, right" and charges ahead regardless of the penalties involved. This aspect was also exact on November 18<sup>th</sup>. However the aspect has been within 3 degrees of exactitude from November 9<sup>th</sup> through January 6<sup>th</sup>! Move slowly. Mars ends the month at 21 Taurus36'.

**January 1, 2005 - HAPPY NEW YEAR! This is a perfect time to send healing energy to the Earth.**  $1 + 1 + 2 + 0 + 0 + 5 = 9$  day in an 8 Year.

**January 6, 2006 - Epiphany** marks the 12<sup>th</sup> day of Christmas and a time of new beginnings. Give blessings and gratitude for all that you have. Sending positive thoughts to our Earth Mother for all she has suffered this past year would be a nice way of showing gratitude. Visualize that which you desire, the same as you would on the New Moon.

**January 14, 2006 - Full Moon 24 Cancer 05'** - Cancer is a cardinal, water sign. She is extra sensitive and intuitive in her own sign. Children, home, family, fathers, the end of the matter and real estate are highlighted.

**January 16, 2006 - Martin Luther King Jr. Day.**

**January 29, 2006 - New Moon - 09 Aquarius 32** - Friendships, hopes, wishes, the future, groups and organizations and counselors are highlighted.

**January 29, 2006 - Chinese New Year: Dog.** Those born in the year of the Dog are cheerful, direct, responsible, honest and loyal. They make good companions and trustworthy friends and are excellent conversationalists. Dogs are so enthusiastic they can be a bit overwhelming. Although they have difficulty finding the right partner, because they are loyal, once they have found a mate, they remain faithful for life. Dogs are very hard workers. They tend to take their time in warming up to others. Dog years follow Rooster years and will appear in 12 year cycles.

**Jupiter in Scorpio** - Jupiter begins the month of December at 13 Scorpio 18' and ends the month at 17 Scorpio 13'. See where Jupiter transits in your natal or progressed chart for further clarification. With Jupiter in Scorpio, we seek a deeper meaning of what's underneath the surface fluff. Cultivating and expanding your view of the inner dynamics of relating and gaining success in the same is likely. Jupiter is all about expansion and in Scorpio expanding your ability to penetrate deep rooted issues that have been holding you back. The ability to cultivate your perceptions and intuition is highlighted in this sign. Jupiter stays in the sign of Scorpio through November 24, 2006

**Saturn turned retrograde at 11 Leo 18 on November 22<sup>nd</sup>.** - Saturn begins the month of December at 09 Leo 55' and will end the month at 07 Leo 36'. Saturn is all about our physical structures, restrictions and limitations as well as boundaries. Our outer skin is one of these boundaries that keep us "together". Saturn rules the skin, knees and skeletal structures. Saturn is also about our commitments to our personal structure and karma. If you have not acted with integrity or been responsible, Saturn will make you aware of it by creating some limitation, boundary or lesson to re-learn. If you have been working hard, Saturn will possibly set up a task in which you need to prove yourself. Saturn rewards those who have worked hard through difficult times. Saturn in Leo will restructure what we know about patriarchy, parenting, responsibility, excessive pride and the ego. If you have planets in conjunction (the same sign and approximately the same degree) opposition to this degree (Aquarius) or in square (Scorpio and Taurus) you will feel the effects of Saturn moving backwards in your chart.

**Uranus starts the month of December at 07 Pisces 43' and ends at 09 Pisces 04' -** When Uranus transits opposite natal Venus, you may encounter a new love or the break up of an existing relationship. If you have a daughter, she may prove more rebellious or in need of freedom. If Uranus is transiting opposite natal Mercury, you may feel more restless and not require as much sleep. You may have sudden flashes of insight. Do not be surprised and the quickness to which you act and respond to events and people in your life when Uranus makes contact with your personal planets.

**Neptune starts the month of December 15 Aquarius 58'.** If you have planets in conjunction (the same sign and approximately the same degree) opposition to this degree (Leo) or in square (Scorpio and Taurus) you will feel the illusive effects of Neptune's transit the most over time. The dissolution of boundaries and illusions or the uncovering of the truth will be revealed when Neptune transits your personal planets Illusions shattered and pierced and the veil of denial lifted. Neptune will end the month at 17 Aquarius 02'.

**Pluto starts the month of November at 23 Sagittarius 44' and ends up at 25 Sagittarius 52'.** Pluto is in a fire sign burning holes in belief systems that no longer suit our life purpose. Pluto is all about personal power and regeneration, throwing out the old and bringing in the new, oftentimes after a complete overhaul! Pluto in Sagittarius is dogmatic and reveals religious, political and philosophical truths. Purging false beliefs in these areas of life has been ongoing. Change doesn't always feel good. We tend to seek comfort in all things. Pluto isn't necessarily about comfort. Pluto transits feel anything but comfortable. Pluto tends to change you on a very deep psychological level. I compare Pluto's energy to erosion. It takes a very long time for the wind, sun and ocean tides to wear down the beaches and rock. Little by little with each crashing wave, particles of minerals and sand are removed. Over long periods of time, new surfaces and formations emerge sometimes changing the geography of the shoreline. This happens too within our psyche with some assistance from Pluto. Pluto and the 8<sup>th</sup> house is where psychotherapy finds its strength. Pluto is also about power. Owning your own power in the house Pluto transits is intensely focused at this time.

SABIAN SYMBOL'S:

For those of you unfamiliar with the Sabian Symbol, the original Sabian Symbols were written in 1931 by Marc Edmond Jones. Dane Rudhyar later revised the symbols and others have re-interpreted the symbols periodically. Lynda Hill writes one of my favorite modern interpretations. The basis of these symbols is derived from the 360 degrees in the zodiacal circle. Each sign of the zodiac: Aries, Taurus, Gemini and so forth, is comprised of 30 degrees. Since there are 12 signs in the zodiac, that would be 12 signs X 30 degrees = 360 degrees. There are 360 Sabian Symbols and each symbol coincides with and describes each degree of the zodiac. If you know your birth chart, utilizing these symbols for each of your planetary placements is rather telling and will provide you with greater insight into your own character traits and motivations.

NEW MOON - DECEMBER 31, 2005 - 09 Capricorn 32"

New Moon = New Beginnings. New Moons augur a time to start new projects. Seeds (ideas and positive energy) planted during a New Moon will culminate and flourish during the Full Moon.

SABIAN SYMBOL for 10 Capricorn:

AN ALBATROSS FEEDING FROM THE HAND OF A SAILOR

One might believe that a sailor would prove to be a natural enemy of the albatross for he hardened from sailing around the world. In this symbol, however, he extends his hand and nourishment to the albatross. There is some unspoken communication between the two that permits a sense of trust to permeate the atmosphere. The albatross feels safety and gratitude towards the sailor's generosity.

Often the gentlest acts of kindness are those most appreciated. Birds of all kinds are symbols of spirit. They are spiritual messengers, often with a message that only we can hear. The ominous size of the albatross might have created fear in the sailor. Overcoming fear of the unknown and entertaining a certain amount of risk taking elevates our higher consciousness.

FULL MOON - JANUARY 14, 2006 - 24 Cancer 05'

With a Full Moon, we see a culmination or coming to a head the seeds planted during the previous New Moon cycle. Lunar ruled Cancer is usually more affected by a Full Moon and especially in her own sign. Since the January 14th Full Moon falls in the sign of Cancer, this lunar energy will be emphasized. Cancer is an emotional water sign and resides in the 4th house of the natural zodiac, ruled by our lunar maiden Moon. In the sign of Cancer, this Full Moon is more emotionally intensified. Family, your roots, father, parenting, food and nurturing will be highlighted.

SABIAN SYMBOL FOR 25 CANCER:

A LEADER OF MEN WRAPPED IN AN INVISIBLE CLOAK OF POWER

Because this leader of men has an "invisible" cloak of power, this person may not be consciously aware of their strength and authority and how others revere them. It may also be that others are unaware of the inherent leadership ability this person possesses. A certain amount of responsibility and obligation is unavoidable for those who retain power. Perhaps this symbol speaks of owing your own power and not permitting others to "unwrap" or strip you of your power.

Where does this symbol fall in your birth chart?

NEW MOON - JANUARY 29, 2006 - 09 Aquarius 32'

SABIAN SYMBOL FOR 10 AQUARIUS:

A MAN WHO HAD FOR A TIME BECOME THE EMBODIMENT OF AN IDEAL IS MADE TO REALIZE THAT AS A PERSON HE IS NOT THIS IDEAL

The keyword in this symbol is "Ideal". When we idealize a person, place or object, we do not always see it as it actually is. We project our own needs and desires of "perfection" onto that person or object and place it on a pedestal. When we place a person, especially, on a pedestal, we maintain expectations of how that individual should behave and act and look. When an event shatters our illusions about a person, we become disillusioned and disappointed. Our disappointment isn't really about the person or object, but in ourselves for either our denial of or our projection of an ideal. When we see the truth and not see what we choose to believe, this new awareness can bring a tremendous amount of relief and opportunity for personal growth.

Because this symbol opposes transiting Saturn retrograde in Leo, it is important to stay true to yourself and to your ideals. Now is the time to really see yourself and others for who they are.

SOUL MATES/RELATIONSHIPS:

The Capricorn/Cancer - Ascendant/Descendant Relationship Axis (1st house/7th house)

As mentioned in past issues, knowing your partners 7th house cusp (the relationship house) and the ruler of that house will indicate the type of partner you may attract or are attracted to and the method of relating within a relationship.

The Ascendant or Rising sign is the sign rising on the horizon at the time of birth. This is the face we show the world, our "mask" for which our Sun hides behind. This is our outer personality, temperament and disposition as well as how we experienced our early home environment growing up. It is the way others see us and also gives indication of our physical appearance. The ruler of the Ascendant and the aspects (connections to other planets in your birth chart) further delineate and define your physical appearance.

The Descendant, or 7th house cusp, its ruler and the aspects it makes in your birth chart, is symbolic of the type of partner you are attracted to. The 7th house is the house of all partnerships including marriage and legal contracts yet also considered the house of open enemies or the Defendant in a law suit.

In relationships, Capricorn has a planetary rulership with karmic Saturn. If you have a Capricorn Ascendant, you appear responsible, mature, controlled, serious, reserved, warm, friendly and determined. Others look to you for advice and seek wisdom in your presence.

With Lunar ruled Cancer on the descendant you seek a home loving and family oriented person, one who will make a good marriage partner. Attraction to a partner with those qualities who is nurturing, has good parenting skills, a good cook, easily expresses emotions and feelings and who is responsible with money is likely. A man with Capricorn on the Ascendant may be physically attracted to the female form, especially the breasts.

One of the first things you could look at when you have the birth data of a potential partner, is their Moon placement since the Moon rules your descendant.

It is also possible for a Capricorn Ascendant to attract a partner who has Saturn or the Moon prominent in their chart. Prominent Saturn would be in aspect to the Sun, Moon, Mars or Venus or elevated in conjunction to the MC (10th house cusp) or IC (4th house cusp) conjunct or ruling their Ascendant or Descendant or Sun sign in Capricorn.

Knowing the date, time and place of birth is important in making the determination of the Ascendant or Rising sign, the sign rising on the horizon at the time of birth. This cusp sets up all the other house cusps that are the divisions of the houses or areas of life.

Next month the mutable Aquarius/Leo Axis will be highlighted.

**IMPORTANT MESSAGES:**

**PETS!**

During this holiday season, so many people adopt or purchase pets for themselves or for their loved ones. Oftentimes, these pets become unwanted and are either given back up for adoption or worse, abused or abandoned. I've seen so many beautiful, loving, strays wandering the streets. I've cared for quite a few of them myself and continue to do so. I've even adopted a few of my own this past year. Please consider adopting a pet only if you are willing to make a commitment to it over time. There is nothing worse than seeing a cat or dog, accustomed to living in a nice home, given up for adoption and placed back in the SPCA for re-adoption or abandoned on the street. When animals are abandoned they are left not knowing how to defend themselves. They are left out in the cold weather to wander around without food or shelter to live out a rather tragic life.

Even if you do not want to adopt a pet, perhaps you would like to make a donation to your favorite shelter. Money donations are great yet other tax deductible donations such as food, blankets, toys, and cages are accepted, to name a few. Thank you!!

"I am writing to you from a Charity in the UK. We provide information, advice and support to those with mental health issues but focus on borderline personality disorder.

As I hope you are aware the resources available to those coping with BPD or their loved ones is limited. We are the first registered charity in the UK who help those with this disorder I hope this outlines the problem's bpd's face.

We are providing a three day international conference next May in the hope it will educate the many people out there that have bpd or involvement with BPD.

I'm asking for your understanding in how serious the problem is for bpd's and their loved ones and would ask you to display the attached banner on your website to make people aware that their is some where they can go.

Additionally, I'm also seeking birth data and experiences for children born between **1988-1990**. These experiences could involve a family, health or education crisis. I would also like to know if a child born during this time has received a diagnosis of ADD or ADHD. If so, is this child on medication of any kind. Please tell me the type of diet the child maintains. In the subject heading of your mail to me please type the words "**INDIGO KIDS**" and I will e-mail you what I need. All information will be held in confidence.
