**Happy Birthday Sagittarius the Archer!** To all of those born from November 22 - December 21! Key Phrase for Sagittarius is "I SEEK "

Sagittarians are the Idealists and dreamers of the zodiac. Sagittarius is a mutable (changeable, flexible), fire (intuitive, impulsive, idealistic) sign located in the Western Hemisphere of the chart. Your ruling planet is expansive and "benefic" Jupiter. Jupiter and the sign of Sagittarius reside in the 9<sup>th</sup> house of the zodiac. The 9<sup>th</sup> house is typically linked to long distance travel, philosophies and belief systems, religions, higher education and teaching, publishing, counseling and legal issues as well as exploring new horizons. Sagittarius sure does love to teach...or preach for that matter! Horses are usually linked to the sign of Sagittarius and the 9<sup>th</sup> house although most large animals coincide to the 12<sup>th</sup> house. I'll discuss why horses are in the 9<sup>th</sup> when Chiron is mentioned later in the newsletter. There is always that urge to align themselves with a greater ideal, truth and understanding of all subjects. Sagittarians may appear to act larger than life...well if your ruling planet was Jupiter you might feel the same! Jupiter does become excessive at times and that often translates to being overly idealistic, self-righteous and opinionated. Sagittarians tend to have a dream and a goal..and once they get there, they may change their mind about it because they do not want anyone to burst that idealistic bubble.

"Truth, Justice and the American Way" - Was Superman a Sagittarian?

"Faster than a speeding bullet, able to leap tall buildings in a single bound, able to bend steel in his bare hands! Look! Up in the sky! It's a bird, it's a plane, it's SAGITTARIUS!" © Well, he might as well be! Have you ever known a Sagittarian who didn't fly? "Planes, Trains and Automobiles" is their credo. That is where you will find a Sagittarian. Sagittarians are known to be the bachelors of the zodiac and make no doubt about it...these guys are smooth and charming. In fact, you might say charm is their middle name, their first name...and their last name too...only thing is by the time you get to figuring out exactly what their last name is, they are GONE. Jupiter wants to scale mountains, run marathons, and fully develop

every bit of their potential. Sometimes this means going beyond the limits which is why many Jupiter born think they are "off limits" or untouchable. There is always that urge to align themselves with a greater vision. Sagittarians have a unique way of rationalizing everything too. They are known to have foot-in-mouth-disease. Meaning: Open Wide and stick foot in as far as it can go! If you want the truth, nothing but the truth so help you G - d, ask a Sagittarian. They will blurt it out willingly, with an impish smile...and then an apology...if you're that fortunate. This quality is to be admired about Sagittarians because they can be brutally honest and you will always know exactly where you stand when in their company.

"My stupid mouth, has got me in trouble,  
I said too much again,  
To a date over dinner yesterday,  
And I could see she was offended  
She said "well anyway...."  
Just dying for a subject change.

Oh, another social casualty  
Score one more for me  
How could I forget?  
Mama said, "think before speaking"  
No filter in my head  
Oh, what's a boy to do....." John Mayer - Room for Squares CD - My Stupid Mouth

Jupiter, Sag's ruling planet, has a cycle of approximately 12 years. The planet Jupiter is our largest planet and is known to have quite a few moons! In fact, we aren't even sure how many moons (women) Jupiter has because new ones are surfacing and being discovered all the time! That Jupiter was discovered to have so many more moons shouldn't surprise us because it is the planet of "abundance". He was also known to be a womanizer in mythology. In the October issue of Lunar Notes, we discussed Juno, Jupiter's wife. She was acutely aware of how many moons, I mean women, were in Jupiter's life. Whatever Jupiter touches by transit in your birth chart will literally expand in nature. Jupiter can bring wonderful gifts and some have even called him "Santa Claus". However, you know the expression about too much of a good thing, right? Sometimes when Jupiter transits areas of your chart, there can be financial gain or weight gain! Excessive behavior, exaggeration or over doing it can be linked to Jupiter.

According to Ariel Guttman and Kenneth Johnson's Mythic Astrology, correlations between Chiron, Jupiter and Sagittarius are apparent. It was known that Jupiter spent most of his time pursuing his many love interests. The question of faithfulness always surfaces when discussing the sign of Sagittarius because Sagittarians are always searching or wanting the next adventure, particularly if it is outdoors. They are usually committed to their current partner and that isn't usually the issue. "But how LONG they can sustain themselves in that commitment is another question. "Til Death do us part" is not a credo that Sagittarians hold dear (unless the chart contains strong Juno or Cancer symbolism)..and when pushed against the wall to say those words they usually tremble".

Sagittarius' polar opposite (9th house - higher educations, beliefs, philosophies, legal matters, publishing and teaching) is the mutable, air sign Gemini (3rd house - thoughts, communication, siblings, early education including teachers, short distance travel and automobiles). The integration and forming of philosophies and beliefs are some areas of life for Sagittarius, also contingent upon other areas of the birth chart. When under stress each sign will operate through the most negative characteristics of their polar opposite, the sign 180 degrees opposite itself. In this case, when under stress, Sagittarius can become ...just like mutable, airy Gemini, ruled by Mercury and become scattered and fickle and non-committal.

When Jupiter transits your birth chart or if Jupiter is significantly placed in your chart, you may experience benefit, fortune or excess. For instance, my Jupiter in Libra is located in my 11<sup>th</sup> house of friends, associations, counseling and hopes and wishes. This is an area of my life where I feel most "fortunate" since I've always had the most wonderful friends and have been fortunate in the ability to utilize Astrology in helping others. In the sign of Libra, I enjoy being in a relationship.

Just a day,  
Just an ordinary day.  
Just trying' to get by.  
Just a boy,  
Just an ordinary boy.  
But he was looking to the sky.  
And as he asked if I would come along  
I started to realize...  
That everyday he finds  
Just what he's looking for,  
Like a shooting star... he shines.

He said... take my hand,  
Live while you can...  
Don't you see your dreams right in  
the palm of your hand?

And as he spoke, he spoke ordinary words...  
Although they did not feel  
For I felt what I had not felt before...  
You'd swear those words could heal.  
And as I looked up into those eyes  
His vision borrows mine.  
And to know he's no stranger,  
For I feel I've held him for all of time.

Please come with me,  
See what I see.  
Touch the stars for time will not flee.  
Time will not flee.

And you must be

Just a dream, just an ordinary dream.  
As I wake in bed  
And the boy, that boy, that ordinary boy.  
Or was it all in my head?  
Did he ask if I would come along?  
It all seemed so real.  
But as I looked to the door,  
I saw that boy standing there with a deal.

Just a boy,  
Just an ordinary boy.  
But he was looking to the sky.

#### **CHIRON - The Wounded Healer, Teacher, Seeker, Maverick, Marriage indicator**

"He's everything you want, he's everything you need, he's everything inside of you that you wish you could be, he says all the right things, at exactly the right time, but he means nothing to you and you don't know why" - Vertical Horizon

In Mythology, when Chiron was born, his mother rejected him because he was born a Centaur...half man and half horse. When his parents Hera & Zeus saw their new son's image they abandoned him, repulsed by his body and physical form. Chiron's first wound was psychological - one of abandonment and rejection and a perpetual longing for the love and "relationship" to his parents, especially that of his mother.

Chiron's physical wound was in his foot and thigh, injured by a poison arrow, affecting his mobility. Sagittarians (horses) need lots of freedom to roam around. When that freedom is restricted or there is a "perceived" restriction then Chiron/Sagittarius really feels wounded. There can't be anything worse than being trapped in a physical body that doesn't feel right to us. Chiron spent much time in his cave studying the stars, medicine, spirituality, mathematics and music. He was able to utilize these disciplines to heal others and in turn heal himself; hence, The Wounded Healer archetype. The astrological glyph or symbol for the sign of Sagittarius is just that, a Centaur holding a bow and arrow pointed to the heavens....and into the distance.

One of Chiron's life lessons is relinquishing his painful memories from childhood. Because Chiron is immortal, his pain and suffering is eternal. Much of his pain was of his own making. When we are able to heal our primary wound (s) in life, we are usually able to utilize that experience to assist others with similar wounds and painful life experiences and in turn, heal our self. That is if we choose this path. Oftentimes, people can be in so much emotional pain and turmoil, or have not forgiven their parents, others or themselves so they choose to harm others as a projection of their own needs not having been met. A vicious cycle ensues and you will attract others to play out your dramas for you to take a look at, time and time again.

As Chiron matured, he became quite a wise teacher (Sagittarius/Jupiter) and a Shaman/Healer. The placement of Chiron in your birth chart shows your deepest wound by house position and aspects it makes to other planets and cusps (the divisions of the signs) in your birth chart. This is also the place you will find your greatest strengths and ability to heal others and where you are able to exert or project this knowledge out into the environment. Chiron connections are very significant in synastry. Synastry is the comparison of two birth charts that shows compatibility and relationship dynamics to each other. When people enter into relationships where there is a strong Chiron connection, the relationship takes on a fated quality. Recent studies have confirmed Chiron as a marriage or partnership indicator. However, relationships indicated by Chiron are usually not easy at first. The difficulties inherent in Chironic relationships must be overcome for the personal growth of both individuals. That is the test of Chiron's placement in relationship comparison. Discussion of Chiron is continued on my website: [www.FuchsiaStars.com](http://www.FuchsiaStars.com)

Tarot Card # 20 XIV - Temperance - Symbolic of Sagittarius

In the Rider-Waite version, you see the Angel Temperance - Archangel Michael. He has the solar symbol on his head with light rays streaming outward from it. In each hand a cup is held, one cup is silver (feminine) and one gold (masculine). Water pours and vibrates (waves) and is blended from one cup to the other. This blending of fire and water, masculine and feminine and the conscious and unconscious also symbolizes conception. The number 14 is the most fertile day of a woman's cycle.

The Symbol of Temperance may appear in a reading during a time when emotional balance is required. There may be emotional days ahead or a need to balance and/or adapt our emotions to bring about positive and "creative" results. If this card turns up next to the Empress or the Sun, a conception or baby may be on the way!

~~~~~  
**LONG SNOWS MOON (Elk)**

In Native American Astrology, those born from November 22nd- December 21st are born under the Long Snows Moon and their animal totem is the Elk. Their color is black and obsidian is their totem in the mineral kingdom. Obsidian is a type of volcanic glass that is usually shiny like glass. It has razor-sharp edges and therefore should always be "handled carefully." Obsidian was used in carvings and for jewelry as well as for mirrors. It was also

crafted for use in arrowheads. Because obsidian comes from deep within the earth it is said to be grounding.

Elk people are very similar to the properties of obsidian. They can be good mirrors for other people as well as project "their stuff" onto others. They are often rough around the edges or difficult to get to know because of their uneven outer surface. Elk people can be very protective of those they love or from "perceived" danger. "They try to get as many cows as they can into their harem, and they will fervently defend them from the approaches of any other male". (Medicine Wheel-Earth Astrology, Sun Bear and Wabun) They are often introspective and clairvoyant. The Elk is a very strong and elegant animal and perhaps one of the most regal in the deer family. Men of this totem are competitive with each other about the women in their lives and can be prone to fits of rage or jealousy that may come as a surprise to those close to them.

## **December, 2004**

**Our Moon changes signs approximately every 2 \_ days.**

**December 12, 2004: New Moon 20 Sagittarius 22'.** A New Moon is always a good time to start a new project or work on areas of your life you've let pass. New beginnings are associated with New Moons. Sagittarius, ruled by benefic Jupiter, is the 9th sign of the zodiac. This is a positive time to develop your spirituality and to get in touch with your higher self. You may wish to focus on philosophies, law, long distance travel, religion or education.

**December 17, 2004 - Venus at 11 Scorpio enters fun loving Sagittarius.** Venus in Sagittarius was to run and play. Venus in Sagittarius is fun loving, non possessive and carefree and enjoys sport and sharing philosophical beliefs.

**December 20, 2004 - Mercury Direct at 10 Sagittarius 27'.** Mercury went retrograde at 26 Sagittarius 43' conjunct the Galactic Center on November 30th. Mercury rules communication, thoughts, newspapers and transportation. During the retrograde it was a good time to revise, review and assimilate information but to not take action. With Mercury direct, communications should prove easier. Now is the time to act on what you reevaluated the past 3 weeks.

**December 22, 2004: Sun enters Capricorn - Happy Birthday Capricorn!** Capricorn is a feminine (non-confrontive), cardinal (initiative) and earth (practical/grounded) sign. We will look forward to discussing the sign of Capricorn in the next issue of Lunar Notes.

**December 25<sup>th</sup> - Merry Christmas!**

**December 26, 2004 - Full Moon 05 Cancer 12' -** A full moon is a culmination of energy from the last New Moon, approximately 14 days earlier. In the sign of Cancer the focus is on your emotions, roots, home, family and early nurturing.

**December 26, 2004 - Mars enters fun loving Sagittarius** - Mars began the month at 13 Scorpio. Mars will end the month at 04 Sagittarius 00' in Jupiter ruled Sagittarius. Mars in Sagittarius wants freedom to romp and roam. The love of sport and intellectual debate is prominent.

**Jupiter** - Jupiter starts the month at 13 Libra 19' and ends the month at 17 Libra 14'. In the Venus ruled sign of Libra, Jupiter is expansive, loving and warm in love matters. Relationships are highlighted while Jupiter transits Libra.

**Saturn in Cancer continues his retrograde (rx) through March 22, 2005** - Saturn in Cancer starts the month at 26 Cancer 50'. Saturn is all about our physical structures, restrictions and limitations as well as boundaries. Saturn is also about our commitments to our personal structure. With Saturn in Cancer, the planet in opposition (Capricorn) and in square (Libra, Aries) will be in for some lessons in the areas of life (houses) these signs reside in your birth chart. If you have not acted with integrity or been responsible, Saturn will make you aware of it by creating some limitation, boundary or lesson to re-learn. If you have been working hard, Saturn will possibly set up a task in which you need to prove yourself. Saturn rewards those who have worked hard through difficult times. When retrograde we have the opportunity to finish or renegotiate projects we have started. He ends the month at 24 Cancer 58'. Whatever needs to be redone, reevaluated and reworked will be the focus during Saturn's retreat.

**Neptune starts the month at 13 Aquarius 07.'** If you have planets in conjunction (the same sign and approximately the same degree) opposition to this degree (Leo) or in square (Scorpio and Taurus) you will feel the illusive effects of Neptune's transit the most over time. The dissolution of boundaries and illusions or the uncovering of the truth will be revealed when Neptune transits your personal planets. Neptune ends the month at 13 Aquarius 49'.

**Uranus in Pisces** - Uranus starts the month at 03 Pisces 02' and will end the month at 03 Pisces 53'. For instance, when Uranus transits opposite natal Venus, you may encounter a new love or the break up of an existing relationship. If you have a daughter, she may prove more rebellious or in need of freedom. If Uranus is transiting opposite natal Mercury, you may feel more restless and not need as much sleep. You may have sudden flashes of insight. Do not be surprised and the quickness to which you act and respond to events and people in your life when Uranus makes contact with your personal planets.

**Pluto starts the month at 21 Sagittarius 35'** and ends up at 22 Sagittarius 42' on the 31st. Pluto is in a fire sign burning holes in belief systems that no longer suit our life purpose. Pluto is all about personal power and regeneration, throwing out the old and bringing in the new, oftentimes after a complete overhaul! Pluto in Sagittarius is dogmatic and reveals religious, political and philosophical truths. Purging false beliefs in these areas of life has been ongoing.

**SABIAN SYMBOL'S:**

For those of you unfamiliar with the Sabian Symbol, the original Sabian Symbols were written in 1931 by Marc Edmond Jones. Dane Rudhyar later revised the symbols and others have re-interpreted the symbols periodically. Lynda Hill writes one of my favorite modern interpretations. The basis of these symbols is derived from the 360 degrees in the zodiacal circle. Each sign of the zodiac: Aries, Taurus, Gemini and so forth, is comprised of 30 degrees. Since there are 12 signs in the zodiac, that would be 12 signs X 30 degrees = 360 degrees. There are 360 Sabian Symbols and each symbol coincides with and describes each degree of the zodiac. If you know your birth chart, utilizing these symbols for each of your planetary placements is rather telling and will provide you with greater insight into your own character traits and motivations.

### **NEW MOON December 12, 2004 - 20 Sagittarius 22'**

New moon = New Beginnings. New Moons augur a time to start new projects. Seeds (ideas and positive energy) planted during a New Moon will culminate and flourish during the next Full Moon or often up to 6 months later. In Sagittarius, new beliefs, religious or legal issues or higher education could be a focus.

Since Sagittarius rules the 9th house of the natural zodiac, this New Moon would be a good time to focus and visualize on these areas of your life. Focus may be learning about a foreign land or culture, law, publishing or your in-laws! In health issues look for sciatic and hip care.

### **SABIAN SYMBOL for 21 Sagittarius:**

#### **A CHILD AND A DOG WEARING BORROWED EYEGLASSES**

The image of a dog and child playing appears to be carefree. Child-like innocence is highlighted. When wearing eyeglasses the child may not see especially clearly. These glasses may be too large for the child's face. Images will be distorted and judgment will be skewed.

Oftentimes we think someone is more intelligent than they are because they wear eyeglasses. When we wear the eyeglasses belonging to another our perception of our environment and others is altered and we may not see where we are going!

This image reminds me that we can filter our reality and see it differently, by temporarily altering it. Sometimes this new awareness benefits us to see nuances not previously known. Alternately, seeing reality through another lens can prove startling and also unsettling. Perhaps we are deceiving ourselves or spending too much time fantasizing.

### **FULL MOON - December 26, 2004 - 05 Cancer 12'**

With a Full Moon, we see a culmination or coming to a head the seeds planted during the previous New Moon cycle. Since the December 26<sup>th</sup> Full Moon falls in the sign of Cancer,

this lunar energy will be emphasized. Cancer is a cardinal, water (emotions) sign and resides in the 4th house of the natural zodiac, ruled by our Lunar Lady, the Moon. The Moon is Symbolic of Cancer and the 4th house. These internal issues may come into focus for you now.

In Cancer, your home life and family issues may be intensified during this full moon. If this Full Moon conjuncts (same approximate degree) or opposes (180 degrees opposite) a natal planet, you will be more likely to experience the culminating affects of this Full Moon in the area of life (houses) it is located in your birth chart.

### **SABIAN SYMBOL for 6 CANCER:**

#### **IN SPRING GAME BIRDS ARE FEATHERING THEIR NESTS**

In springtime birds flutter around to find twigs, paper, feathers, and twine to "feather" their nests. This is a time of new beginnings as nests are constructed for security, warmth and comfort for eggs to be laid which then hatch. All of this scurrying around and nest building is temporary for after the hatchlings learn to fly, they do not return to their nest.

Sometimes intruders, other birds or squirrels, invade the nest. It isn't always as safe as hoped be.

This image is one of dedication and laying the ground work for something to grow. Nurturing and feeling safe is highlighted. Change and feeling vulnerable is also highlighted.

Where does 6 Cancer (conjunction-intensity) or 6 Capricorn (opposition-assimilating from outside -others) or 6 Aries/Libra (square-tension) fall in your chart?

### **SOUL MATES/RELATIONSHIPS:**

#### **MARS AND HOW IT FUNCTIONS IN RELATIONSHIPS/SEXUALITY**

In the June issue of Lunar Notes, I discussed the function of Venus in relationships. Venus is described as what we are attracted to, what we attract to us, what we value and how we earn income.

If Venus is what we are attracted to and what turns us on, then Mars is how we go after what we desire and the physical act of loving. Mars is desire, assertion, initiation, aggression, prowess and sexuality. It is how we act or achieve our goals whether they are work/career goals or relationship/intimacy goals. Mars is the ancient ruler of the sign Scorpio, before Pluto was discovered. Both Pluto and Mars rule the sexual sign of Scorpio. Mars, therefore, is about power and energy which combine for a sense of purpose exhibited through sexual energy. Mars in the chart will show how a person will function sexually and how he/she achieves fulfillment in this area and through intimate relationships.

Because Mars maintains rulership over the muscles in the body, the quality of muscle tone is also indicative of Mars in the birth chart. A strong Mars is usually prominent in charts of athletes, boxers and military officials. The sign, house placement (area of life) and aspects (relationships) will give a greater awareness of how Mars functions in your chart.

**Mars/Sun contacts:** The Sun is the spiritual self. It indicates how the father behaved in the household. Mars is how "I act" and our sex drive. The Sun is enhanced by Mars assertive and sexual energy. The sign placement will show exactly how one "acts" and behaves". If in tense aspect, as in a square, we may act (Mars) against our self (Sun), much the way our father did.

**Mars/Moon contacts:** Mars is about sex and the moon is our body and our emotional needs. When these two planets are at ease in the chart we meet both our emotional and our sexual needs through intimacy. When in conflict, our sexual needs may be in conflict with our emotional needs. We may act against (Mars) what is fulfilling emotionally (Moon). This could be choosing a sexual partner who doesn't fulfill us emotionally. The Magi Society claims this to be a very strong sexual/romantic attachment if found in chart comparison.

**Mars/Mercury contacts:** Mercury is communication and our thought process and Mars is sexual. When at ease, communication plays a role in desire. When at odds, the misuse of words, or volatility may be present. Negative thoughts may inhibit sexuality. Heavy breathing ☺

**Mars/Venus contacts:** When at odds with each other Mars will act against what he values and loves. There may be difficulty in sexual expression. When at ease, Mars and Venus will fully appreciate and love each other. Much energy will be expended in love matters. The attraction and desire are in sync and comfortable in expressing both love and sexual desire. This is another Magi Super Sports Champion aspect.

**Mars/Jupiter contacts:** Jupiter expands what it touches and when it aspects Mars in your chart, sexuality is heightened. This individual usually enjoys sex. When not in an easy aspect this could be a person who falls in and out of love and off with another on a moment's notice. Remember, Jupiter was a philanderer and he was a happy one! Mars is anger and Jupiter can overemphasize or exaggerate this function when in harsh aspect.

**Mars/Saturn contacts:** Saturn represents the influence of the father or some restriction or boundary and Mars is about our libido. Sometimes there is guilt about sexual expression when these planets are at odds in the birth chart. Positively this person would be sexually responsible and not jump into romances quickly.

**Mars/Uranus contacts:** Uranus represents self-willed and erratic tendencies and Mars is our sex drive. When these two planets make contact, the energy level is quite elevated and unpredictable. Quite often the sexual expression is unorthodox and eccentric. One minute you're "on" and the next minute you're "off". There is much nervous energy with this aspect. This is another Magi Super Sports Champion aspect.

**Mars/Neptune contacts:** Neptune is about fantasy, dreams and unreality. Mars is our sexual expression and how we pursue our desires. When these two planets make contact in your birth chart or in synastry with a lover, romance and fantasy may prevail. Spiritual love may be at its best or negatively in a cloud of illusion where we do not see our partner clearly. There is much creative, mystical energy inherent in the contact of these planets.

**Mars/Pluto contacts:** Pluto is about power, control, obsessions and intensity and Mars is our sexual energy and how we act to get our desires met. When we combine Pluto and Mars in a birth chart or in chart comparison, sparks fly! Sexuality is heightened, powerful and intensified and an obsession with our sex partner is possible. Positively, these enormous energies blend well together and are dynamic and all consuming. Negatively, fear, violence, jealousy or anger may result. The Magi Society calls this the Super Sexual link if found between partner charts. It is also one of the Super Sports Champion Aspect.
